

### Sp-5 SILICONE DE-MOULDING LUBRICANT

Item #: 818656

EAN : 3660338044557

#### Description

De-moulding agent for plastic materials.  
Adhesive resistant and antistatic.  
Silicone in hydrocarbon solution.  
Un-colored and almost non-smelling lubricant.

#### Applications

Allows elastomer elements to be quickly lubricated. De-moulding agent for plastic or rubber parts. Eases the sliding of drive cylinders. Improves the efficiency of guillotine blades. Ideal for metal/elastomer couples.

#### Characteristics

- Gross volume	650mL
- Net volume	500mL
- Propellant gas	Butan
- Components	Please refer to the SDS

#### Instructions

Surfaces to treat must be clean and degreased before use. Spray 15cm from surface to treat, without overcharging. Treat again if needed.

#### Packaging

- Unit
- Carton of 12 aerosols
