

### Ga-1 COLD GLOSS GALVA

Item #: 181800

EAN : 3660338006098

#### Description

Cold glossy galvanisation paint for metallic surfaces.  
Applies a metallic zinc deposit, protecting from oxidation and corrosion.  
Good adherence quick-drying.  
Can constitute a bonding underlayment for lacquers.

#### Applications

Apply as a paint on iron, steel, galvanised sheets, frames, roofs, piping...

#### Characteristics

- Gross volume	650mL
- Net volume	500mL
- Propellant gas	Butane/dimethyl ether
- Components	Please refer to the SDS

#### Instructions

Brush and degrease the surfaces before treatment. Do not apply when humid weather. It is not critical to remove the adhesive rust. Shake well before use, even after ball release, before and during use. Drain after use by spraying upside down.

#### Packaging

- Unit
- Carton of 12 aerosols
