

UNIVERSAL DRUM SPILL MAT

Item #: 855105

EAN: 3660338105890

Description

Hydrophilic absorbent *melt blown* nonwoven, ideal for answering to any liquid spillage or leaking issues. 56cm diameter with 2 holes, dedicated to the protection of the 220-litre drum tops.

They are recommended for absorbing pump dripping before it reaches the ground.

Due to the absorbent barrel mat, the areas for drum emptying, storing or filling stay clean and safe.

Applications

For any type of pollutant liquids, pure, diluted or in emulsions such as oils, hydrocarbons, lubricants, solvents, diesel fuel, chemical substances, etc...

Characteristics
